Issue Date: 8/1/2006, **Celebrate 60 Years With Batzner Pest Management**

NEW BERLIN, Wis. — [Batzner Pest Management Co.](#) will celebrate both its 60th anniversary and the opening of a new headquarters on Sept. 8.

“The public is invited to attend our celebration, which will be held from 1-3 p.m. at the new location, 16948 W. Victor Rd. in New Berlin, Wis.,” said President Jerry Batzner. “We’ll have a few surprises to offer, including a unique ribbon cutting ceremony featuring area dignitaries, door prizes, and the opportunity to participate in two fun events — a bug identification contest and a bug trivia contest.”

The Batzner organization has also invited local and state government officials, members of local chambers of commerce, state health officials, and presidents of state and national pest management associations.

Batzner employees will also conduct tours of the new facilities and will have historical photos of the early Batzner organization on display.

Established in 1946, the Batzner company is currently in its third generation of family ownership and has grown to be Wisconsin’s largest independent pest management firm.
