

NIBAN-FG[®]

Turn ants into ain'ts.

DELIVERS KILLER CONVENIENCE.

Niban-FG gives PMPs the power of Niban in a ready-to-use fine granular form ideal for indoor use. Niban-FG is perfect for perimeter, attic and crawl space treatments as well as difficult-to-reach areas like cracks and crevices, under cabinets and appliances, in and around waste containers and into openings around drains, water pipes and electrical conduits.

The active ingredient in Niban-FG is a 5% boric acid. Each granule carries patented insect food attractants and food grade oils to give the bait not only excellent insect attraction and efficacy, but also long-term protection against moisture and spoilage.

Niban is considered a Green Pest Management[®] product. It's the "original" boric acid granular bait of the pest industry and is backed by independent product-specific research.

- Kills and controls multiple species of ants, cockroaches and crickets as well as silverfish, earwigs, slugs and snails.
- Labeled for use in most structures of all types, including meat and poultry plants.
- Weatherized: Won't degrade in heat or sunlight and lasts through 4" of rain without molding.
- Proven superior attractants with a broad spectrum kill.
- Kills the whole ant colony.
- Can be used indoors or outdoors.
- Has virtually no odor. Can be used indoors in sensitive areas.
- Non-staining formulation can be used on wood decks and concrete walkways.
- Mega-mix of attractants to increase uptake by pests year-round.
- Provides excellent perimeter treatments.
- Delivers significantly greater performance against slugs & snails than iron phosphate.
- Metaldehyde-free, borate-based and formulated with a concern for the environment.
